ITALIAN DESIGN

## OEMMEBI MACHINES

Hello,

Welcome to the world of OEMMEBI!

OEMMEBI is an Italian brand specializing in the production of fitness equipment and accessories for gyms and fitness clubs. Our history dates back to the 1980s, and since then, we have been emphasizing the principle of "less is more." For us, this means that functionality goes hand in hand with simple form and minimalist design.

In our products, we prioritize the highest quality materials, ensuring not only efficiency in use but also an extended product lifespan. Our professionalism is evident at every stage of production – from the initial phase of creating machines to their delivery to the customer.

OEMMEBI proudly embraces Italian design traditions, meeting user expectations for 40 years. Our clean Italian design, professional production, and special attention to our customers make us a reliable partner in the fitness market.

## PLATE LOADED

### **Precision Performance**

Plate-loaded machines are fitness equipment designed for strength training, utilizing individual weight plates for resistance. These machines provide a versatile and customizable workout experience, allowing users to adjust the load according to their fitness levels and specific training goals.
